Yokohama Rubber Supplying Its “AVID S34RV” Tires as Original Equipment for 2020 Chrysler Voyager

Tokyo – The Yokohama Rubber Co., Ltd., announced today that its “AVID S34RV” has been selected as original equipment on the 2020 Chrysler Voyager. The new Voyager, sold in the U.S. and Mexican markets, comes equipped with 235/65R17 104T size tires.

“AVID S34RV” is YOKOHAMA’s all-season passenger car tire which contributes to higher fuel efficiency while also providing superior drivability and safety. The tire was developed by applying the basic design and materials technology used in the company’s “BluEarth” global tire brand, which is based on the concept of “environmentally, human and socially friendly.” The “AVID S34RV” is also equipped on the Chrysler Pacifica.

Yokohama Rubber is aggressively developing tires employing its leading-edge “BluEarth” tire technology, and many of these tires are now coming factory-equipped on a wide variety of new car models, including the latest-model sedans, SUVs, sports cars, and compact cars.
